

VCE ACCOUNTING

VCE Accounting explores the financial recording, reporting, analysis and decision-making processes of a sole proprietor small business.

\$ Financial literacy!

\$ Critical thinking!

\$ Numbers? sure!

(but not a lot of maths)

VCE Accounting prepares students for a university or TAFE vocational study pathway to commerce, management and accounting, leading to careers in areas such as financial accounting, management accounting, forensic/investigative accounting, taxation, environmental accounting, management and corporate or personal financial planning.

What students achieve;

- acquire knowledge and skills to record financial data and report accounting information
- develop an understanding of the role of accounting in the management and operation of a business
- use financial and other information to improve the accounting decision-making within a business.
